SUMMARY

I am a dedicated Software Engineer with a Bachelor of Technology in Electronics and Communication. My academic journey, combined with internships in full stack web development and front-end design, has equipped me with valuable skills in Python, web technologies, and effective teamwork. I am passionate about crafting user-friendly applications and continuously honing my technical abilities

EDUCATION

Government Engineering College, Idukki, in
Electronics And Communication

2020 – 2024

- CGPA: 7.95/10

INTERNSHIP/ COURSE

Python Full Stack Web
Development, Techmindz , Infopark

Oct 2024- Feb 2025

- Gained experience in full stack web development using Python.
- Learned to implement frontend frameworks effectively.

CERTIFICATES

Python-HackerRank

- Acquired proficiency in Python through online challenge.

IIT Style Project Based Learning (LEAP)

2021-2023

- Participation in project-based learning focus on IIT methodologies.

Graduate Fellow-IITM Pravartak Foundation

Jan 2024-Jun 2024

Part of the IITM Incubation Cell for technology development

- Supported the incubation of innovative startups.
- Gained insights into entrepreneurship and technology.
- Conducted workshops to enhance team productivity.

IEEE Member

Oct 2020- Feb 2022

- Active member of IEEE with successful coordination of events.

PROJECTS

Job Website

- Designed and implemented a fully functional job website and Integrated User-Friendly Features – Added job postings, user authentication, and application tracking to enhance user experience.
- Tools Used: HTML, CSS, JavaScript and Django

Product Website

- Developed a responsive product website using Django and implemented multi-threading for efficient background processing
- Tools Used: HTML,CSS , JavaScript,Bootstrap and Django

Medical Website

- Developed a fully functional medical website
- Tools Used: HTML,CSS , JavaScript and Bootstrap

Front-end of Portfolio

- Frontend design model for a personal portfolio.
- Tools Used: HTML,CSS , JavaScript and Bootstrap

Landing Page- Traveling Site

- Landing page project showcasing web design abilities.
- Tools Used: HTML,CSS , JavaScript and Bootstrap

Cricket Match Python

- Random module, loops, and conditionals to ensure an engaging and interactive experience
- The program was developed and executed using PyCharm

TECHNICAL& SOFT SKILLS

Languages: Python, HTML & CSS and Javascript

CSS Frameworks: Bootstrap

Frameworks & APIs: Django,Django REST Framework (DRF)

Web Development Tools: VScode, Git, Github

Cloud/Databases: Relational Database(mysql)

Relevant Coursework: Operating Systems, Object Oriented Programming, Software Engineering,Backend Development , Frontend Development

Soft Skills: Problem Solving, Self-learning, Presentation, Adaptability, Leadership, Collaboration,
